

9.1. Keuangan Daerah

Penerimaan pemerintah daerah merupakan salah satu faktor utama untuk membiayai pembangunan. Penerimaan pemerintah daerah bersumber dari pendapatan asli daerah berupa pajak daerah dan bantuan pemerintah pusat. Dengan terbatasnya penerimaan daerah maka bantuan pusat berupa dana perimbangan masih cukup dominan dalam APBD Jawa Barat.

Tolak ukur meningkatnya kegiatan pembangunan suatu daerah dapat diamati dari realisasi pengeluaran pemerintah daerah, yang terdiri dari pengeluaran rutin dan pengeluaran pembangunan. Pengeluaran rutin terdiri dari belanja pegawai, belanja barang dan belanja operasional lainnya, sedangkan pengeluaran pembangunan terdiri dari pengeluaran untuk prasarana fisik dan lain-lain.

Realisasi Anggaran Pendapatan Pemerintah Daerah Provinsi Jawa Barat pada tahun anggaran 2004, mencapai 4 044,46 milyar rupiah. Jenis penerimaan terbesar berasal dari Pendapatan Asli Daerah sebesar 2 846,80 milyar, dimana pajak daerah merupakan kontributor terbesar. Sedangkan realisasi Anggaran Belanja Pemerintah Daerah Provinsi Jawa Barat sebesar 3 670,57 milyar rupiah. Jenis pengeluaran terbesar berasal dari Belanja

9.1 Regional Finance

The Regional government revenue is one of main factor for development expenditure. Sources of regional revenue are local government original revenues and central government aid. With the limited of regional revenue, the central government aid such as balance fund was still dominant in Jawa Barat.

One indicator of regional development activity improvement can be observed from the realization of government expenditure which consists of routine and development expenditure. Routine expenditure consists of personnel expenditure, material expenditure and other operational expenditure, while development expenditure consists of physical infrastructure development expenditure and other expenditure.

The actual revenues of regional government of Jawa Barat province for fiscal year 2004 reached 4 044,46 billion rupiahs. The most revenue came from local government original revenue which reached 2 846.80 billions rupiahs, and the most contributor was the revenue from local tax. Moreover, the actual expenditures of regional government reached 3 670.57 billion rupiahs. The most spending was from share and financial aid expenditure and from civil

Bagi Hasil dan Bantuan Keuangan dan Belanja Aparatur, masing-masing sebesar 1 570,50 milyar dan 1 029,47 milyar.

Pada tahun anggaran 2004 Jawa Barat mengalami defisit 373,89 milyar rupiah untuk pembiayaan, karena jumlah penerimaan daerah lebih kecil dari jumlah pengeluaran. Jumlah penerimaan sebesar 668,4 milyar rupiah dan jumlah pengeluaran sebesar 1 042,31 milyar rupiah. Penerimaan terbesar berasal dari sisa lebih perhitungan anggaran tahun lalu 653,4 milyar, dan pengeluaran terbesar berasal dari sisa anggaran tahun berjalan 875,1 milyar. Kabupaten Bandung dan kota Bandung adalah daerah yang memiliki total pendapatan dan total penerimaan tertinggi di Jawa Barat.

9.2. Bank dan Koperasi

Kontribusi Bank dalam pembangunan sangat signifikan dalam menggerakkan roda perekonomian. Bank sebagai lembaga finansial akan menarik dunia bisnis sebagai mitra untuk meningkatkan investasinya sehingga saling memperoleh keuntungan. Di lain pihak, secara makro akan meningkatkan Nilai Tambah Bruto.

Koperasi sebagai soko guru perekonomian nasional masih kurang

servant expenditure for around 1 570.50 million rupiahs and 1 029.47 million rupiahs respectively.

In fiscal year 2004, Jawa Barat budget result in deficit 373,89 billions rupiah for financing. This was as a result of total regional expenditures was greater than total regional revenues. Total revenue was 668,4 billions rupiah, while total expenditure was 1 042.31 billions rupiah. The greatest revenue was from previous year surplus for 653.4 billions rupiah, and the greatest expenditure was from current year surplus for 875.1 billions rupiah. Bandung regency and Bandung city were the two area which had the greatest total revenue and total expenditure.

9.2 Bank And Cooperation

Contribution of Bank in development is very significant to support economic wheel. Bank as financial Institution will attract business people as a partner to invest for both parties benefit. In addition, it will increase value added from this activity.

Cooperation as the leader in national economic is still neglected. Nevertheless, cooperation performance is gradually improved by the

mendapat perhatian. Namun demikian, kinerja koperasi secara perlahan-lahan mulai di tata pemerintah agar dapat memberikan kesejahteraan anggotanya. Usaha tersebut terlihat dengan diperlakukannya koperasi sebagai salah satu badan yang dipersamakan dengan dunia usaha untuk bersaing, termasuk tender-tender dan kegiatan lainnya.

Jumlah koperasi di Jawa Barat pada tahun 2005 tercatat 19 759 buah, dengan jumlah terbanyak berada di kota Bandung dan kabupaten Bandung masing-masing sebanyak 2 212 dan 2 020.

9.3. Harga-harga

Dalam perekonomian faktor harga sangat menentukan, baik dunia bisnis maupun terhadap konsumen. Di dunia bisnis, harga akan mempengaruhi struktur biaya dan keuntungan. Berbeda dengan konsumen, harga akan mempengaruhi daya beli masyarakat. Perubahan harga makro dapat ditunjukkan oleh tingkat inflasi. Sedangkan inflasi yang tinggi akan membatasi gerak investor dan dipihak konsumen akan mengurangi daya beli dan kesejahteraan masyarakat. Berbeda dengan tingkat inflasi yang rendah akan merangsang dunia usaha untuk melakukan investasi dan bahkan dapat meningkatkan kesejahteraan konsumen.

government in order to improve the member welfare. This effort can be seen from special treatment so that legal cooperation has same position with other establishment for competition include in pra qualification establishment participation and other activities.

In 2005, the number of Jawa Barat Cooperatives was 19 759. Bandung City and Bandung Regency had the most number which were 2 212 and 2 020 .

9.3. Prices.

Price factor in economic is very determine, not only in business world but also to consumer. In Business World, prices will affect cost structure and profit. While in consumer, prices will affect purchasing power of society. Inflation rate can be used as indicator of price's change. High inflation will prevent investor movement and in consumer side will decrease purchasing power and society welfare. The Lower inflation rate will enhance business world to invest so that it will improve consumer welfare.

Secara umum perkembangan harga-harga beberapa jenis barang dan jasa pada tahun 2005 mengalami kenaikan. Tingkat inflasi di beberapa kota di Jawa Barat pada tahun ini mencapai dua digit, yang menandakan harga-harga sangat melonjak/ tidak stabil dibandingkan tahun sebelumnya. Secara lengkap data tentang inflasi dan detail tentang faktor penunjang inflasi serta data lain yang berhubungan dapat dilihat pada Tabel 9.3.1 sampai dengan 9.3.7

9.4. Nilai Kurs Rupiah

Nilai tukar rupiah terhadap dollar (US \$) masih sangat fluktuatif. Kebijakan-kebijakan pemerintah dan isu-isu keamanan dan politik menjadi faktor utama penyebab turun naiknya nilai tukar rupiah terhadap dollar. Pemilu yang diadakan pada tahun 2004 juga sangat berpengaruh terhadap perubahan nilai tukar tersebut. Banyak pihak yang berspekulasi terhadap keadaan negara yang pada saat itu belum jelas. Nilai kurs beli terendah terdapat pada bulan Januari dan angka ini terus mengalami kenaikan. Namun pada akhir tahun 2005, nilai rupiah kembali menguat yang hampir setara dengan nilai pertengahan tahun (Juli 2005). Data detail tentang nilai kurs rupiah terhadap mata uang asing per bulan dapat dilihat secara lengkap pada Tabel 9.4.1 sampai dengan Tabel 9.4.2.

On general, the trend of commodities prices increased in 2005. However, inflation index in several Jawa Barat cities was over 2 digits. It showed that prices were relatively unstabil and most of the prices considerably increased compared to last year. The complete inflation data and all the factors which contributes to it can be seen in table 9.3.1 up to 9.3.7

9.4. Exchange Rates

Foreign exchange rates, especially dollar, fluctuated toward rupiahs. Government regulation, security and political issue still became the the main cause of this fluctuation of the rupiah towards dollar. The general election which was held in 2004 also brought a big impact toward rupiah values. The speculators tried to interfere since the national situation was so unpredictable. The lowest position of foreign exchange rate was in January, and the rate was continuously increasing. Finally, in the end of the year 2005 the rate became stable as the value in the middle of the year (July 2005). The data of monthly exchange rate of rupiah towards other currencies can be observed in Table 9.4.1 up to 9.4.2.
